To
The Visa Officer,
Consulate General of the Republic of Korea
Delhi, India

Subject: An application for **long-term D-2 study visa** for pursuing a **Bachelor of Business Administration** at **Woosong University, Daejeon, South Korea** for September 2024**.**

Respected Visa Officer,

My name is **Vikash Deepak**, and I reside at Paraspur Saraia Jaspurapur, Kannauj, India, Pin: 209727. I am the holder of Indian Passport number **W1965785**. I hope this letter finds you in good health, and I appreciate the chance to share my journey and aspirations with you. I am writing to convey my genuine enthusiasm and intention to pursue a Bachelor of Business Administration at Woosong University in Daejeon, South Korea. The program spans four years, with English as the medium of instruction. To demonstrate my proficiency in English, I have successfully completed the **Duolingo English Test**, achieving an overall score of **120**. Additionally, to ease my transition and enhance my experience, I have already started learning the Korean language.

Academic and Professional Background

I completed my **Grade 10** from Gaurav Memorial International School in 2019 with an impressive **92.17%** in the CBSE curriculum, where my core subjects included **English, Mathematics, Science,** and **Social Science**. For my **Grade 12** studies, I chose the Commerce stream and graduated from Delhi Public School in 2021 with a commendable **86.67%.** My subjects included **English, Economics, Business Studies**, and **Accountancy**. Throughout my academic journey, I excelled in Accounting, Economics, and Business Studies, gaining a solid foundation in economic principles and business management while honing my analytical and problem-solving skills.
In addition to my academic achievements, I was actively involved in extracurricular activities, particularly in sports. I am proud to have represented my school at the **state level in volleyball**, where I competed in several tournaments and achieved **bronze medal**. However, 2021 brought unforeseen challenges due to the COVID-19 pandemic, and my family faced financial difficulties. My father, a Sub-Inspector (SI) works for Indian government, was committed to supporting the nation during this crisis, and I decided to support my family by temporarily pausing my education. I took on the role of an accountant at **M/s Ankit Construction and Supplier Company**, a business owned by my mother, where I worked diligently until June 2024.

Now that my family's situation has stabilized, and both my parents are doing well in their job roles, I am eager to resume my educational journey. Given my extensive background in business and management, both in my studies and my professional experience, I am determined to pursue a Bachelor's degree in Business Administration.

Why Bachelor's in Business Administration from Woosong University, Daejeon, South Korea?

Having cultivated a strong foundation in commerce during my academic journey and gained practical experience in business management through my professional role as an accountant, I have developed a deep understanding of the intricate workings of business operations. My studies in Economics, Business Studies, and Accountancy have provided me with valuable insights into **financial management, market dynamics,** and **organizational behavior**, while my hands-on experience has sharpened my **problem-solving skills** and **business acumen**. This unique blend of theoretical knowledge and real-world application has fueled my passion for business and reinforced my commitment to furthering my education in this field. Pursuing a Bachelor of Business Administration is a natural progression of my journey, allowing me to build on my existing expertise and equip myself with advanced skills in leadership, strategic decision-making, and global business practices. This program will enable me to deepen my understanding of core business concepts, explore innovative management strategies, and prepare for leadership roles in the dynamic business world. I am confident that this degree will empower me to contribute meaningfully to the business landscape and achieve my long-term career aspirations.

My unwavering passion for business and management led me to carefully consider my options, ultimately leading me to choose Woosong University. I was drawn to Woosong University for its esteemed international faculty, diverse and vibrant academic community, and a curriculum that aligns perfectly with my career aspirations. The program's focus on essential topics such as **Mathematics in Business, IT for Business**, and **Introduction to Microeconomics** resonates with my interests and provides a comprehensive foundation for my future in the field. The inclusion of an internship component further excites me, as it encourages self-directed learning and deepens my understanding of critical business concepts.

Moreover, the program's emphasis on Business Administration will allow me to develop the traits and skills necessary to thrive in the global business environment. Woosong University's multicultural setting will also play a pivotal role in shaping my personality, exposing me to diverse perspectives and fostering a global mindset. The university's renowned student communities offer a platform for open dialogue and collaboration, providing the perfect environment for me to step out of my comfort zone and engage with peers from around the world. This course is exactly what I have been seeking to achieve my dream position in the business world.

Why South Korea?

I chose South Korea as my destination for higher education due to its remarkable **economic vibrancy, cutting-edge technological advancements**, and its growing influence on the global stage. South Korea's dynamic environment, characterized by innovation and a forward-thinking approach to business, presents a unique opportunity for me to gain a comprehensive understanding of global business practices. Immersing myself in this thriving economy will not only enhance my academic experience but also provide me with real-world insights into how businesses operate in one of the world's most technologically advanced nations. I am confident that studying in South Korea will foster my growth as a future business leader, equipping me with the skills and perspectives needed to succeed in an increasingly interconnected world.

Moreover, the University Campus, Daejeon is an excellent location for studying Business Administration due to its status as a major hub of science and technology in South Korea, often referred to as the **"Silicon Valley of Asia."** The city is home to numerous research institutions, innovation centers, and high-tech industries, making it a vibrant environment for students interested in the intersection of business and technology. Daejeon's proximity to key business districts and its well-developed infrastructure offer students valuable opportunities for internships, industry collaborations, and networking with professionals in the business and tech sectors. Additionally, the city's emphasis on innovation and entrepreneurship aligns perfectly with the goals of a Business Administration program, providing a dynamic backdrop for learning modern business practices and strategies. The blend of academic excellence and industry presence in Daejeon creates an ideal setting for aspiring business leaders to gain both theoretical knowledge and practical experience.

Future Plans and Ties in India

Upon completing my studies in South Korea, my primary goal is to leverage the valuable knowledge and practical experience I gain at Woosong University to contribute significantly to the growth and expansion of my mother's company. Currently, the business operates within my home city, but I am determined to broaden its reach and establish a presence in multiple cities. The comprehensive education in Business Administration at Woosong University will equip me with the technical expertise and in-depth understanding necessary to achieve this vision. I am confident that the skills and insights I acquire during my studies will empower me to implement strategic initiatives, enhance operational efficiency, and drive the business toward sustainable growth. My ultimate aim is to transform our business into a thriving enterprise with a strong footprint across various regions.

My family in India consists of my father, mother, and elder brother, who are my most important ties and the primary reason I will return to my home country after completing my studies in South Korea. My father is a dedicated government employee, serving as **a Sub-Inspector (SI) in the Indian Police Department**, and my mother owns and operates a business named **M/s Ankit Construction and Supplier Company**. My elder brother is following in my father's footsteps, preparing for the SSC (Staff Selection Commission) exams to serve the country in a similar capacity. I am deeply committed to my family and have a clear plan to return to India to carry forward the legacy of my mother's business. It is my responsibility to take the reins of our family enterprise, ensuring its growth and expansion. This strong sense of duty and connection to my family compels me to return home, where I can apply the knowledge and skills gained from my studies to contribute to our business and, by extension, to the economic development of my community.

Financial Establishment and ability to fund education

My family is in a robust financial position, fully equipped to support my education in South Korea without any concerns. My father, **Mr. Ishwar Dayal**, is dedicated to covering all costs associated with my studies and living arrangements throughout the duration of my program. To ensure that I am financially secure while in South Korea, he has transferred **USD 17,574.47** into my savings account **(account no. 41518062657)** specially for my studies and stay. Additionally, I have already paid a total of **USD 4,433.00** to Woosong University, Daejeon, which covers my first semester's **tuition, enrollment fees, residence, meals, and health insurance.** With a substantial net worth, including both liquid and non-liquid assets totaling INR 1,23,80,739.32 (equivalent to **USD 1,47,477.54** at a conversion rate of USD 1 = INR 83.95), my father is well-prepared to meet all financial obligations. I am confident that my tuition, living expenses, and any additional costs will be fully covered during my time in South Korea. I am excited about the academic and personal growth that studying at Woosong University will bring and feel secure in my ability to focus on my studies without financial concerns.

I kindly request your favorable consideration of my application for a long-term D-2 study visa and pledge my complete commitment to abiding by all visa regulations during my stay in South Korea. I have enclosed my visa application along with all the required documentation. If you require any further information, kindly contact me at the details provided below.

Thanking you.

Yours sincerely,

Vikash Deepak
