I am Pleased to write this letter of recommendation of **MR. CHALLA GOWTHAM REDDY** whom I have known for the last for the last 3 years. He was my student in front office for the course of **Bachelor of Hotel Management and Catering Technology**. During this period, I had the opportunity to observe him closely. He has proven to be an exceptional student and one that makes a lasting impression. He has demonstrated great zeal and perseverance in pursuing the course and that is not his only virtue.

To begin with, he is excellent in academics. He has a great passion for the course and his excitement and enthusiasm are hard to miss. His consistent hard work and quest for improvement mirrored in his grades which have always been excellent among the best in class. He is an active participant in class and makes himself part of the on-going discussion. He believes in taking the course beyond the book and applies the concepts to practical situations. He has a great presence of mind and always thinks outside the box while still staying within the realm of the practical and feasible.

I would definitely rate him one of the best students I have had in my class. He aims for a thorough understanding of various elements of the course. He is an independent self-starter, yet does great in group assignments. All his assignments are well written and organized and he never misses deadlines. He possesses effective communication skills are commendable. As I have mentioned earlier, academics are not his only strong point. He involves himself in a variety of extracurricular activities.

I reiterate that his aptitude and hardworking nature coupled with strong intent to learn make him a deserving candidate for the Masters' program in your university and I believe that your institution will nurture him and help him in crafting his future- I once again recommend him for the mentioned course. I wish him all luck in his future endeavours.

P.Y.N.R.Swamy
